Attachments: HazCat Sheets.pdf; 1162_C.JPG

Hello Anne,

Attached is a pictures and the hazcat sheet you requested that shows BYK's label on a fiber drum at the Site.

As for the action memo tables you are requesting, they are the analytical results that EPA has for the containers on the Site and unfortunately the type is very small. I do not have access to better or larger type for the results, however the non hazardous drum we are referring to was filled with trash. So I believe the analytical results would be pointless, since the drum we are referring to obviously does not contain any of those chemicals.

If you have any further questions feel free to call.

Bonnie,

I was told that Southern Clay Products had received a similar Request for Information but I have not actually seen it and it is my understanding that Southern Clay will ask its own counsel to follow up with you. There is a connection between the two companies but I am afraid that I do not know what it is – whether the two entities are under common ownership or whether there is some other relationship. I will pass on your request that BYK's SCP 104e response include that information.

regards
Anne

Anne,

I just saw an email from our counsel Bill Tucker and he mentioned that your company also received a 104e for Southern Clay Products. Is there a connection between SCP and BYK? If not I will not include their information with the information for BYK. If there is a connection and you would like that information also, let me know and I will include it. If there isn't a connection, please state that in the SCP 104e response, have it notarized and send it back. Thanks, Bonnie

Hi Anne,

You may consider this email as an approval of your request for an extension of 30 days to March 16, 2014. I will get the pictures and any other information we have regarding Byk's connection with the Site and I will also send you the Action Memo's list of chemicals. I will not be in the office until Friday, so I will send it then. If you have any additional questions feel free to call me at 732-321-6647 or the number you called today.

Thanks, Bonnie Hriczko

Dear Bonnie,

Thank you for the voicemail message. I appreciate all the detail you provided.

First, please process BYK USA's request for an extension of the 30 day deadline to respond to the Request for Information.

Second, please do send the photo of the drum and any other information that may be available and relevant to BYK's response. Would you include a legible copy of the list of chemicals found at the site? We have a copy of the tables attached to the Nov. 22, 2013 Action Memorandum but they are difficult to read.

Regards

Anne
